## Consulting & Technical Production Hub

Solution based using innovative technologies

SSI Aerostructures is experienced in the partnering with our customers to improve producibility, quality, lead times and costs.

With a “can do” attitude, our vertically integrated facility will use lean business practices, team collaboration, and continuous improvement in providing customer focused solutions. SSI Aerostructures is a proven solution provider for affordable, innovative, manufacturing methods and techniques to meet your quality and customer satisfaction requirements.

Let us partner with you to bring cost reductions to established programs or provide pre-production support & risk mitigation on new programs. Our exceptional customer service will provide you with a superior level of care that is focused on building long lasting relationships.

The broad range of knowledge within the SSI Aerostructures team will deliver creative and cost-effective solutions to complex requirements. We can take the idea, create the tooling, build the prototype, and set up a production line to deliver a composite and thermoplastic parts or structures.

- ✓ **Experience** - A proven track record of taking an idea into reality.
- ✓ **Manufacture & Processing** - The ability to meet customer requirements with a variety of processing capabilities.
- ✓ **Support** - From tooling to engineering, providing solutions with creative ideas and methods.
