Design & Manufacture of Details & Higher-Level Assemblies

Combining experience with cutting edge technologies

Embracing a lean and efficient management philosophy SSI Aerostructures is ready to rapidly respond to our customers' requirements, while staying competitive in cost and delivering superior quality products on-time. Our exceptional customer service will provide you with a superior level of care that is focused on building long lasting relationships.

Our skilled team members employ a broad range of process capabilities such as composite and metal bonding, fiber reinforced plastics, sheet metal forming, machining of aluminum &

hard metals, welding, thermoplastics, painting & coatings, additive manufacturing (AM), and complex assembly to bring your product to fruition.

In addition, we deliver value with pre-production support, risk mitigation, and cost reductions on established programs. We are your solution provider for innovative manufacturing methods and techniques to meet your quality and customer satisfaction requirements.

- ✓ **Experience** - A proven track record of taking an idea into reality.
- ✓ **Manufacture & Processing** - The ability to meet customer requirements with a variety of processing capabilities.
- ✓ **Support** - From tooling to engineering, providing solutions with creative ideas and methods.
